

Noti.Ingram

Ingram is a broad and comprehensive collection of upholstered beds, standing out for its simple and modern lines.

The collection offers two types of beds; full storage boxes and light frames resting on steel skids or legs. There are three types of headboard available: full, single-piece headboards mounted to the bed frame and headboards in the form of vertical and horizontal wall-mounted panels.

The beds are available in three mattress sizes. Also the headboards come in a few sizes, and the overall dimensions can be freely increased by simply adding on more modules.

Ingram is offered in a very broad range of fabric and leather options, which is why this flexible collection can easily meet a variety of functional and aesthetic needs.
