Noti.Linar plus

Linar Plus is a broad collection of universal chairs based on a simple design.

The offered plywood seat can be finished either in an oakwood veneer or an upholstered version, and a wide selection of bases and functional accessories including armrests and a folding table.

With the broad array of options, users are able to select a variant best suited to the functionality and purpose of the interior: residential areas, offices or public utility buildings. Linar chairs have narrow seats, taking up relatively little space, which makes them a superb choice for restaurants and cafés.

In 2022 the collection has been extended by adding a low and a high barstool version, available in a plywood or and upholstered version.
