

Noti.Tulli

Tulli is a collection based on the modern interpretation of the classic Tulipan armchair designed by Teresa Kruszewska in 1973. A visually distinctive element of the collection are subtly outward curved armrests.

The innovative feature and essence of the Tulli system is its precisely moulded plastic form created in rotomoulding technology. Tulli armchairs are based on a universal design, and they look particularly striking when placed in a group.

Tulli collection is especially recommended for public facilities as well as event, festival or trade fair venues. Tulli furniture is also an excellent choice for outdoor spaces such as gardens or terraces. Upholstered versions look great in commercial premises, for example in offices, hotels or restaurants.

In 2016, Tulli was honoured with the prestigious Red Dot Design Award.
