

Noti.Nula

Nula is a collection of tables where simplicity becomes the main value. Round and oval tops are supported by a single, slender leg ending in a subtle, extended element that serves as a handle. Consequently, the table can be easily moved or lifted with a single hand. This small detail gives the design character and makes Nula perfectly suited for everyday use.

The collection is available in two shapes: round and oval. Nula remains visually light and highly mobile, making it well-suited for living rooms, lounge areas, hotel rooms, or workspaces - anywhere a table is meant to accompany the user rather than dominate the interior.

Owing to its consistently simple form, Nula blends effortlessly with various Noti collections, creating a discreet and functional complement to any space.
