

The Comfee armchair collection, inspired by an ethereal dandelion, is a great offer of light and very comfortable seats for home.

The exceptional comfort every user experiences is ensured by a new supporting structure fixed on a metal frame.

The furniture, owing to their shape, offers users the chance of selecting the most comfortable relaxing position, while it also beams with the atmosphere of serenity and relaxation, which fills the whole room.

The wide range of colour schemes and textured fabrics, three types of stitches in the upholstered version, as well as the possibility of preparing the seat from the netting (also available in outdoor version), make it possible to customize a given piece of furniture to meet the individual taste of every customer.
