

x40.

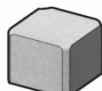

design:
Piotr Kuchciński
2016

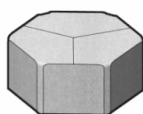

x40 is a family of four pouffes with polygonal bases. The seats have been designed on triangular, square, hexagonal and octagonal plans. The element shared by all the solids is a rectangle with rounded corners, 40 cm in width. Thanks to identical sides, the pouffes can be placed in a variety of arrangements. Based on this distinctive repetitive quality and the broad range of Noti fabric colours, users are able to try out a variety of arrangement possibilities. The basic structural elements are styrofoam profiles covered with polyurethane foam. As a result, the pouffes are very lightweight and can be rearranged as often as you please. The x40 family is an excellent choice for furnishing public utilities and modern residential interiors.
