

COMMA

COMMA

The profile of the Comma chair has been inspired by the comma, one of the punctuation marks. The distinctive shape arises from a formal measure that has resulted in a seating solution with optimal utility. The clear contrast between the seat and the markedly thicker soft backrest brings out the aspect of comfort and highlights the underlying concept of the chair's designer – Renata Kalarus.

The structure of the item allows for any combination of upholstery materials including fabric or leather options. The design is accentuated by distinctive thin paint-coated skids. A version with armrests is offered as well.

Comma chairs are perfect for furnishing modern offices or dining rooms in residential homes.
