

LCD

Lcd is a collection composed of 2-, 3-, and 4-seater sofas, and an armchair. The sleek form of the seats and distinctively shaped steel legs are an homage to the design of the 1950s.

The 3- and 4-seater sofas from 2012 are equipped with gradually reclining backrests. As a result, the furniture can be used not only for sitting, but also for reclining and occasional sleep. In 2016, the collection was expanded to include 2- and 3-seater sofas without the reclining mechanism, as well as an armchair, to accommodate smaller spaces and facilities. To enhance the users' comfort, especially in case of sofa beds, the collection is complemented with backrest cushions.

Lcd is based on the idea that fabrics with different textures or colours are placed on the front and back of the furniture pieces to achieve a broad spectrum of applications both in residential buildings and hotels.
