

# DAAZ

Daaz is a casual take on one of the best known classical pieces: the Chesterfield sofa. The collection was inspired with the curved armrest and backrest shapes. Their contours can be seen here in modern, bold forms designed by Piotr Kuchciński.

Daaz is a distinct collection designed with a great deal of freedom and grandeur. The seats and the backrests are characteristic for their soft lines. They are comfortable to the point of making you feel hugged. With a great variety of modules, you can freely configure your own set - from something quite small and simple, over to sweeping open bays encouraging everyone to sit and make themselves feel at ease.

Daaz is a unique collection. On the one hand, it is a perfect addition to residential interiors, responding to the need for warmth and cosiness, as its soft forms create a sense of safety. On the other hand, its beautifully sculpted shapes invite you to build configurations with surprising geometry with smooth bends that perfectly fill in the space.

Base

High-friction (non-slip) plastic feet

Seat

Panel structure, webbing and rubber belts, pocket springs, polyurethane foam

Backrest

Polyurethane foam

Construction

Panels

Finishing materials

Fabric (natural or artificial leather finishing is not possible)

Additional information

Daaz furniture is characteristic for the softness of the functional parts. Visible creasing on the surface may appear over time. The amount of creasing depends on the fabric grade and rigidity. The warranty does not cover creasing.
