

Noti.Ingram

Ingram est une collection vaste et complète de lits rembourrés aux lignes simples et modernes.

Elle comporte deux types de lits : un lit à coffre ou un cadre léger reposant sur des piètements luges ou pieds en acier. Trois types de chevet sont disponibles : un chevet plein monobloc fixé au cadre du lit et les têtes sous forme de panneaux fixés au mur, séparément du lit — en version verticale et horizontale.

Les lits sont adaptés à trois largeurs de matelas. Les chevets horizontaux et verticaux peuvent être élargie à volonté par l'ajout de modules supplémentaires.

L'ensemble est disponible avec une très large gamme de tissus et de cuirs, ce qui augmente encore la possibilité d'adaptation de cette collection flexible à toute une variété de besoins fonctionnels et esthétiques.
